2 Edits refer to 02-007r2. Page and line numbers are displayed in the margin. Absent other
3 instructions, a page and line number or line number range implies all of the indicated text is to
4 be replaced by associated text, while a page and line number followed by + (-) indicates that
5 associated text is to be inserted after (before) the indicated line. Remarks are noted in the
6 margin, or appear between [and] in the text.

7 [Before meeting 161, the Editor expressed his disagreement with removing the word “derefer- 105:17-18
8 enced” from this passage. He still doesn’t like this passage. Rather than trying to specify when
9 a *data-ref* is a subobject of its base object and when it is not, specify *only* when it *is*. In every
10 other circumstance, it *isn’t*; those situations therefore need no description. Editor: “, but ...
11 target” ⇒ “and not in any other context”.]
