4 text, while a page and line number followed by + (-) indicates that associated text is to be inserted after
5 (before) the indicated line. Remarks are noted in the margin, or appear between [ and ] in the text.

7 [Editor: Insert "or construct" after "procedure" twice.]                                           85:3,4

8 [Editor: Exchange items (4) and (5) to bring "not assumed-shape" and "assumed-shape" together.]    88:2-3

15 it is argument associated with an allocated actual argument" after "allocated".]

16 [Editor: Insert ", and hence its shape," after "pointer" and delete "in two ways". Replace the semicolon   91:14-16

19            an associated pointer actual argument.

21 similar paragraphs in related subclauses (see, e.g., [92:11]).]

22 [Editor: Delete Note 5.13.]                                                                        94:13+1-3
