COMPATIBLE Rounding Mode in INQUIRE Statement

To: J3
From: Craig Dedo
Date: December 14, 2000
Subject: COMPATIBLE Rounding Mode in INQUIRE Statement

Rationale

The normative text for the ROUND= specifier in the INQUIRE statement (9.8.1.28) does not include "COMPATIBLE" in the list of values that can be returned. We need to fix this oversight.

Edits

Edits are with respect to the 00-007r3.

[205:2-3,7] Add "COMPATIBLE" to the list in two places.
