Subject: More edits for Section 16
From: Van Snyder

1 Edits

Edits refer to 02-007r2. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[Subclause 16.2.3 is about specific procedures, but it's referenced from [57:3] in the context of generic bindings. Editor: insert "or type-bound" after "specific".] 395:17

[Subprograms don't have names, and the sentence overlooks ENTRY statements.]

[Editor: "subprogram or a derived-type definition" ⇒ "derived-type definition or subprogram".] 399:41

[Editor: "subprogram or derived type" ⇒ "derived type or of any procedure defined by the subprogram".] 400:1
