Subject: First draft of edits to use ALLOCATABLE and POINTER attributes in generic resolution
From: Van Snyder
Reference: 03-258r1, section 2.3.2, 04-170, 04-381, WG5/N1626-J3-012

1 Edits

Edits refer to 04-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[Editor: In the second normative paragraph in **16.2.3 Restrictions on generic declarations** (after Note 16.5) after "other" insert ", or if both are dummy data objects and one has the ALLOCATABLE attribute and the other has the POINTER attribute."] 407:29
