Subject: Comments on Annex A
From: Van Snyder

1 Edits

Edits refer to 07-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[Editor: Replace "to" by "that may be associated with".] 505:25

[Editor: Replace "an" by "a scalar".] 506:20

[Editor: Delete ", and whether it is optional" because that's already said at [506:29].] 506:35

[Editor: Insert a blank, as needed, after "1539", thrice.] 507:23,25,27

[Editor: Replace "will be" by "is".] 508:17-18

[Editor: Replace "on ... statements" by "in a variable definition context (16.6.7)".] 508:28

[Editor: Insert "may" before "have" and "or is a procedure pointer, and to which procedures may be bound" after the final "type".] 509:1-2

[Editor: Insert "to be" after "specified".] 509:12

[Editor: Insert ", BLOCK" after "ASSOCIATE".] 509:23

[Editor: Insert "at its point of reference" after "explicit interface" and either replace "a procedure reference ... unit" by "the reference is to a procedure from within its own scoping unit" or delete that phrase and add a new sentence "A procedure has explicit interface within its own scoping unit."] 509:32-34

[Editor: Insert ", an ALLOCATE statement" after "pointer assignment statement" and replace "the execution of an" by "an intrinsic".] 513:32

[Editor: Insert ", its binding label (if any)" after "argument".] 514:11

[Editor: Replace "fundamental" by "largest-scale" since some consider "fundamental" to mean "indivisible", and insert ", submodule" after "module".] 514:18-19

[Editor: Join the lines.] 514:37-38

[Editor: Replace "in ... as" by "as a", "parameters" by "parameter", "bounds" by "bound" and append "in a type declaration statement in a procedure" within and at the end of the sentence.] 515:15-17

[Editor: Replace "subcomponent ... object" by "component of an object of derived type" because none of the other glossary entries repeat what they're defining in the way this one does.] 516:3

[Editor: Replace "binding in" by "bound to" because a binding isn't a procedure.] 516:31

[Editor: Append another sentence "For a pointer, the property of not having a determinate association status."] 517:7
