Subject: Issue 191.
From: Van Snyder

1 Edits

Edits refer to 99-007r1. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by immediately following text, while a page and line number followed by + indicates that immediately following text is to be inserted after the indicated line. Remarks for the editor are noted in the margin, or appear between [and] in the text.

Each initial procedure shall have at least one dummy argument. The first dummy argument shall

49:39-42 through "attribute"

1. Be of the type to which the initial procedure is bound;
2. Not be polymorphic (5.1.1.8);
3. Have assumed shape if it is an array;
4. Have the INTENT(INOUT) attribute; and
5. Shall not have the ALLOCATABLE, POINTER or OPTIONAL attribute.

[Editor: Delete.]

50:3-10

Each final procedure shall have exactly one dummy argument which shall have the same properties as required for the first dummy argument of an initial procedure (4.5.1.5.1).

51:44-46
