Edits refer to 00-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by immediately following text, while a page and line number followed by + indicates that immediately following text is to be inserted after the indicated line. Remarks for the editor are noted in the margin, or appear between [and] in the text.

[Editor: After "argument" add "is neither allocatable nor a pointer, or is a pointer for which the associated actual argument is an associated pointer, or"] 257:41

[Editor: After "argument" add a new sentence "Otherwise, the initial values of the deferred type parameters of the dummy argument are undefined."] 257:43
