Subject: Specification expressions and functions aren't in the glossary
From: Van Snyder

# 1 Edits

Edits refer to 00-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by immediately following text, while a page and line number followed by + (-) indicates that immediately following text is to be inserted after (before) the indicated line. Remarks for the editor are noted in the margin, or appear between [ and ] in the text.

---

402:4+ **specification expression** (7.1.6): An *expression* with limitations that make it suitable for use in specifications such as nonkind *type parameters* or *array bounds*.

**specification function** (7.1.6): A nonintrinsic *function* that may be used in a *specification expression*.
