Subject: Addressing comments in 02-209 concerning 02-190
From: Van Snyder

1 Edits

Edits refer to 02-007r2. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[Before meeting 161, the Editor expressed his disagreement with removing the word "dereferenced" from this passage. He still doesn't like this passage. Rather than trying to specify when a *data-ref* is a subobject of its base object and when it is not, specify *only* when it *is*. In every other circumstance, it *isn't*; those situations therefore need no description. Editor: ", but ... target" ⇒ "and not in any other context".] 105:17-18
