Subject: Unresolved technical issue 25
From: Van Snyder

1 Introducton

Unresolved technical issue 25 suggests that defining **iteration** as the execution of the range of a DO CONCURRENT construct breaks its use elsewhere.

Edits refer to 06-007. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.
