Subject: Correct minor problem with statement functions
From: Van Snyder

1 Edits

Edits refer to 06-007r1. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by associated text, while a page and line number followed by + (-) indicates that associated text is to be inserted after (before) the indicated line. Remarks are noted in the margin, or appear between [and] in the text.

[Editor: "the entity" ⇒ "an entity", insert ", if there is such an entity, and otherwise has type and type parameters determined by the implicit typing rules in effect in that scoping unit" after "function".] 334:4
