Subject: More work on deferred type parameters
References: 99-141r1
From: Van Snyder

1 Introduction

These problems are not addressed by any of the editor's unresolved issues.

2 Edits

Edits refer to 99-007r2. Page and line numbers are displayed in the margin. Absent other instructions, a page and line number or line number range implies all of the indicated text is to be replaced by immediately following text, while a page and line number followed by + indicates that immediately following text is to be inserted after the indicated line. Remarks for the editor are noted in the margin, or appear between [and] in the text.

[[Editor: After "all of its" add "deferred type parameters, deferred array bounds, and".]	77:31
Replace "with the same shape." by ". If it is an array, it is allocated with the same bounds. If it has deferred type parameters, the values of deferred type parameters of the component of *expr* are used for the values of corresponding parameters of the component of *variable*."	153:42
If type parameters of a function result are deferred, which parameters are deferred is a characteristic.	262:29+

(7) If it has type parameters, they shall not be inquired about. 279:35+
